

THE CREW INSURANCE IN CASE OF ACCIDENT

Using someone's liability insurance policy might be rather inconvenient, especially abroad. If it is not possible to use the liability insurance policy of the third party for the high costs that appeared in the case of: income loss, hospital curing or invalidity, the accidents can cost your future.

Besides, it is important to know that in case you are guilty for the accident your crew is not insured by the liability insurance policy.

Our insurance covers all the costs, no matter of the guilt – your or of the third party in the case of: invalidity or death or temporary consequences of the accident, as well as the costs of the rescuing of the casualties.

Consequently, the crew insurance in the case of an accident protects you and your crew from all the above mentioned consequences of an accident.

Attention: The amount of the insurance will be divided by the number of persons on the yacht in the moment of the accident. It means that if there are four persons on the boat and one is injured by an accident the injured person will receive 1/4 of the chosen amount of insurance. It is therefore important to choose a high enough amount of insurance.

Insurance policies with charter risk included the premium will be doubled.

THE INFORMATION ON THE VALIDITY AREA OF ALL KINDS OF INSURANCE

The validity area can be contracted for the whole world and minimally for:

Mediterranean Sea: inside the sea channel Gibraltar and entrance to Dardanelle. The territorial waters of North Africa, Middle East and Albania are excluded. The territorial water of Tunisia and Morocco are insured.
